

HOMESTAY – 1

Blue Magpie Homestay

Blue Magpie Homestay

The homestay is situated in Satkhol at a 0.5 Km distance from Aarohi. The area is a haven for wild herbs, flora and fauna. Essentially a fruit growing belt, our homestay's summer harvest offers apricots, peaches, plums and pears.

A walk in the oak and pine forest may be enhanced by sightings of white or red monkey, deer, porcupine, cuckoo, wood pecker and falcon. Blue Magpie, after which we named our home-stay, is a majestic and beautiful red-billed bird that visits the area in the winter and summer months. For birdwatchers this region can be a paradise. The monsoon season brings to life the many rivers and waterfalls. Winter offers the fiery red of the rhododendron flowers which cover the region with the additional pleasure of the ability to join our family around an open fire of pine cones.

We can offer you a range of home cooked regional meals and arrange for visits to the local attractions and villages. You can enjoy the magnificent view of Himalayan mountains Trishul and Nanda Devi from the homestay.
